CAREER OBJECTIVE :

To apply my electronic engineering expertise in solving complex challenges and driving innovation in the field.

EXPERIENCE

BSNL, RGMTTC — INTERN

MAY 2023 (25DAYS)

I performed as an intern at BSNL, where I played a pivotal role in the implementation of mobile network infrastructure and modules. troubleshooting, configuration, gaining practical expertise which provided me with valuable insights into the telecommunications industry and honed my technical and problem-solving skills.

EDUCATION

Central polytechnic college, Taramani, chennai

2021 - 2024

Diploma in Electronics and Communication

Engineering in Central polytechnic college

(Expected Graduation Year :2024 June)CGPA : 76.13

Children's Paradise Matric. Hr. Sec. school, Redhills

Year 2021

Completed SSLC at children's paradise matric and

Higher secondary school on the year of 2021

PROJECTS

TITLE : Arduino Based Obstacle Avoiding Vehicle Using Bluetooth And Voice Control

Description: Developed a prototype vehicle capable of avoiding obstacles using Arduino microcontroller, ultrasonic sensors, and Bluetooth module for remote control. Implemented voice control feature for intuitive operation.
